

Teradata Supplier Diversity Policy Statement

Teradata's supplier diversity policy affirms that certified diverse suppliers have the maximum opportunity to participate in providing products and services to Teradata.

Teradata recognizes the need for and the benefits of sourcing and stimulating the growth of small businesses, minority, women, veteran, and LGBT-owned business enterprises (diverse suppliers). Consequently, Teradata has adopted a proactive policy of promoting the use of these businesses as sources of supply. We understand that a diverse supplier base promotes innovation, provides multiple procurement channels for goods and services, and displays our company's interest in and commitment to the economic growth of our community while accessing different networks and penetrating new markets.

Including diverse suppliers in our sourcing strategies adds value to our business by providing us with a competitive advantage, developing stronger communities where we live and work, and thereby creating a solid foundation for supplier diversity success.

Sincerely,

A handwritten signature in black ink that reads "Steve".

Steve McMillan

Teradata President and CEO
